These products have been certified within the meaning of Section 10 of Act 22/1997 Coll., on technical requirements for products and on the amendment to certain Acts, as amended. The Engineering Test Institute, Public Enterprise, hereby certifies that the characteristics of the samples of the products concerned have been found conforming to the requirements specified in

Technical Construction Certificate STO-30-00243-15 of 2015-03-20.

Fulfilment of these requirements is considered fulfilment of the essential requirements of Government Regulation 163/2002 Coll., as amended.

The present Certificate has been issued on the basis of Final Report on Initial Product Type Testing 30-12695 of 2015-03-31, issued by the Engineering Test Institute, Public Enterprise. The period of validity of the Certificate is limited by the validity of the Final Report on Initial Product Type Testing, i.e. valid until 2017-03-31.

The rules for using the Certificate are specified on Page 7.

OKC Heater.... NTR(NTRR)/HR represents a combined of a water heater (above) and storage tank (hydraulic distributor - HR, below).

The volume of storage tank is 50, 80, 100, 120, 160, 200, 250, 300 l.

OKC Heater labels.... NTR (NTRR)/HR specify the storage heater volume/storage tank volume, e.g. OKC 200NTR/HR100.

Versions v1 to v20 are different in their inside diameter parameters and also in the sense of their positioning of the connecting sleeves according to the customer's requirements.

NADO and NADOE tanks serve, at the same time, to heating the service water through the built-in tank (a tank inside of another tank) in the interior area. The tank's volume is 10, 15, 20, 25, 35, 45, 60, 100, 120, 140, 160, 200, 250, 300, 350, 400 l, according to the storage tank's volume.

NADO and NADOE tanks' labels specify the total volume/volume of the storage tank for service water, e.g. NADO(NADOE) 1000/140 v2 or 2000/400 v4.

### RULES FOR USING THE CERTIFICATE:

Compliance with the essential requirements laid down by Government Regulation 163/2002 Coll., as amended, has been derived from the compliance with the requirements specified in the Technical Construction Certificate. Amendment or issuance of new harmonized or determined standards relating to the certified products or expiry of the validity period of the Technical Construction Certificate may alter the facts under which the present Certificate has been issued. In that case, the present Certificate usability for purposes of issuing the declaration of conformity of the products being placed on the market will have to be reviewed.

The Certificate may only be used as a certificate for the products specified on Pages 1 to 7 hereof. This also applies to its use in advertising, promotional and commercial materials. Unauthorised or deceitful use of the Certificate may be sanctioned (Section 19 of Act 22/1997 Coll. on technical requirements for products and on amendments to some Acts, as amended).

It is prohibited to change, amend or overwrite the data contained in the Certificate.

The Certificate may not be used for the products changed without consent of the Engineering Test Institute, Public Enterprise, in such a way that conformity with the technical requirements specified on Page 1 has been affected.
